

# Perceived Obstacles to Gender Equality

The Focus 2030 and Women Deliver unveiled the findings of Citizens Call for a Gender-Equal World: A Roadmap for Action, a first-of-its-kind international survey on public perceptions of gender equality. This visual represents the results of survey “a civil society-centered, global gathering for gender equality.” ~1000 responses..

Which are the main reasons why women can not be equal to men?

Top reasons in **Australia** for Gender Inequality

While the impact of an online survey is minimal in more developed countries, in countries such as Argentina, China, Colombia, India, Kenya, Mexico, South Africa, and Tunisia, it is inevitable that the respondents in the selected panel will be more representative of urban areas and more advantaged professional circles.
